CHARACTERISTICS OF THE GROWTH ENTERPRISE MARKET (“GEM”) OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE “STOCK EXCHANGE”)

GEM has been positioned as a market designed to accommodate companies to which a higher investment risk may be attached than other companies listed on the Stock Exchange. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS REVIEW

The Group recorded an increase in revenue of approximately 12.8% for the three months ended 30 June 2016 as compared with that for the three months ended 30 June 2015. Although the global economy remained stagnant during the three months ended 30 June 2016, the Group was able to recognise a stable growth in the American market with an increase in sales of leather garments to two major customers with higher degree of complexity and design elements. The Group has always been offering satisfactory supply chain management total solutions to retain existing customers, and at the same time the Group has been striving to expand the customer base and develop new customer portfolio, not only exploring new sales region but also offering various types of products/services to best fit the customers' changing needs.

The Group recorded a profit and total comprehensive income attributable to owners of the Company of approximately HK\$4.9 million for the three months ended 30 June 2016 as compared with a loss and total comprehensive expense of approximately HK\$1.8 million for the three months ended 30 June 2015. The turnaround from the net loss to the net profit was mainly due to nil listing expense incurred for the three months ended 30 June 2016, while approximately HK\$6.7 million non-recurring listing expenses incurred for the three months ended 30 June 2015.

On 7 October 2015, the Shares have been successfully listed on GEM by placing (the "Placing"). After deducting all the relevant commission and expenses borne by the Company, there are approximately HK\$5.1 million of net proceeds from the Placing. During the period from the Listing Date to 30 June 2016, approximately HK\$1.5 million was utilised in accordance with the business strategies as set out in the Company's prospectus dated 29 September 2015 in relation to the Placing (the "Prospectus"). Further details are set out in the section headed "Use of Proceeds" in this report.

The Group's gross profit margin slightly decreased to approximately 34.5% for the three months ended 30 June 2016 from approximately 35.4% for the three months ended 30 June 2015, which was mainly attributable to more competitive pricing offered to both existing and new customers.

MANAGEMENT DISCUSSION AND ANALYSIS

USE OF PROCEEDS

The Shares have been successfully listed on GEM on 7 October 2015. The actual net proceeds from the Placing, after deducting commission and expenses borne by the Company in connection with the Placing, were approximately HK\$5.1 million (the "Actual Net Proceeds"), which were less than the estimated one stated in the Prospectus. Thus, the Company plans to apply the Actual Net Proceeds on the same business strategic plans as stated in the Prospectus for the period from 1 October 2015 to 30 June 2018 (the "Period") but with monetary adjustments to each business strategic plan on a pro rata basis. As the Placing completed after 30 September 2015, the estimated use of proceeds for the period ended 30 September 2015 as stated in the Prospectus would be foregone. MANAGEMENT DISCUSSION AND ANALYSIS

FUTURE PROSPECTS

Brexit in June 2016 would probably deal a blow to Europe, which is one of the Group's major markets. The Group foresees that the economic conditions of the European market will become more challenging and both sales and profit margin will be under pressure. Nevertheless, the Group is confident to maintain its organic growth by further exploring the American market and any other new potential markets with the efforts of setting up new merchandising teams and strengthening the design team, if and when necessary.

In March 2016, the Company has entered into a consultancy agreement with an independent third party for provision of consultancy services to the Group in relation to the sales of the Group's products and services for a period of five years. The Group expects such consultant, which has extensive network and immense experience in apparel industry worldwide, will introduce the Group new customers and business opportunities with the aim to further broaden the Group's customer base for continuous growth, if and when opportunity arises and with profound knowledge in the industry, will advise the Group appropriate strategies with respect to marketing and promotion of products of the Group on a global scale. The Directors are confident that the Group is able to expand the markets and types of customers served and to become a leading supply chain management company in Hong Kong.
